Asian Loot-Charles C. McDougald 1993 Charles C. McDougald lived in Asia for twenty years, including ten years in the Philippines from 1972 to 1982. His impeccable research stems from an academic background whose credentials include a bachelor of science degree from the University of Georgia, a master's degree from the Asian Institute of Management, and a doctorate in business from the University of the Philippines. The data he gathered for his doctoral dissertation was the genesis of his 1987 book "The Marcos File", which exposed the Marcos regime for its corruption and excesses. It was while working on a book about Marcos' hidden wealth that he stumbled on the story of a treasure hunt headed by Marcos. His close friendship with the national security director provided him access to the corridors of power. He was asked to find out the truth, both about the legendary treasure and the Marcos gold. His academic credentials, plus his military background-- he was a captain in the Green Berets in Vietnam-- made him a natural choice. He returned to the Philippines. A cave-in killed two of his men and overnight this top-secret operation made the front page of almost every major newspaper in the world.

Queering Masculinities in Language and Culture-Paul Baker 2017-12-08 How do we learn what it means to be a man? And how do we learn to question what it means to be a man? This collection comprises a set of original interdisciplinary chapters on the linguistic and cultural representations of queer masculinities in a range of new and older media: television, film, online forums, news reporting, advertising and fiction. This innovative work examines new and emerging forms of gender hybridisation in relation to complex socialisation and immigration contexts including the role of EU institutions in ascertaining asylum seekers' sexual orientation, and the European laws on gender policy. The book

employs numerous analytical approaches including critical discourse analysis, corpus linguistics, multimodal analysis, literary criticism and anthropological and social research. The authors show how such texts can disrupt, question or complicate traditional notions of what it means to be a man, queering the idea that men possess fixed identities or desires, instead arguing that masculinity is constantly changing and negotiated through the cultural and political overlapping contexts in which it is regularly produced. These nuanced analyses will bring fresh insights for students and scholars of gender, masculinity and queer studies, linguistics, anthropology and semiotics.

Networks of Echoes-Bruce J. West 2014-04-03 *Networks of Echoes: Imitation, Innovation and Invisible Leaders* is a mathematically rigorous and data rich book on a fascinating area of the science and engineering of social webs. There are hundreds of complex network phenomena whose statistical properties are described by inverse power laws. The phenomena of interest are not arcane events that we encounter only fleetingly, but are events that dominate our lives. We examine how this intermittent statistical behavior intertwines itself with what appears to be the organized activity of social groups. The book is structured as answers to a sequence of questions such as: How are decisions reached in elections and boardrooms? How is the stability of a society undermined by zealots and committed minorities and how is that stability re-established? Can we learn to answer such

questions about human behavior by studying the way flocks of birds retain their formation when eluding a predator? These questions and others are answered using a generic model of a complex dynamic network—one whose global behavior is determined by a symmetric interaction among individuals based on social imitation. The complexity of the network is manifest in time series resulting from self-organized critical dynamics that have divergent first and second moments, are non-stationary, non-ergodic and non-Poisson. How phase transitions in the network dynamics influence such activity as decision making is a fascinating story and provides a context for introducing many of the mathematical ideas necessary for understanding complex networks in general. The decision making model (DMM) is selected to emphasize that there are features of complex webs that supersede specific mechanisms and need to be understood from a general perspective. This insightful overview of recent tools and their uses may serve as an introduction and curriculum guide in related courses.

Working with Sexually Abusive Adolescents-Masud S Hoghghi 1997-10-10 This book presents a clear and comprehensive overview of the key factors involved in working with adolescent sex offenders. With an emphasis throughout on practical guidance, leading practitioners address a number of important questions: Who are sexually abusive adolescents and what do they do? What are the current theories of adolescent sexual

abusiveness? How can we address issues of risk estimation and management? What are the assumptions behind many aspects of assessment and treatment?

The Jane Austen Marriage Manual-Kim Izzo 2012-05-22 Katherine Shaw—Kate— is happy with her life. She has supportive friends, a glamorous magazine career, and a love of all things Jane Austen. But when she loses her job, her beloved grandmother falls ill and a financial disaster forces a sale on the family home, Kate finds herself facing a crisis that would test even the most stalwart of Austen heroines. Friends rally round, connecting her to freelance gigs, and presenting her with a birthday gift— title to land in Scotland—that's about to come in very handy. Turns out that Kate's first freelance assignment is to test an Austen-inspired theory: in the toughest economic times is a wealthy man the only must-have accessory? What begins as an article turns into an opportunity as Kate—now Lady Kate—jet-sets to Palm Beach, St Moritz and London where, in keeping company with the elite, she meets prospects who make Mr. Darcy look like an amateur. But will rubbing shoulders with men of good fortune ever actually lead her to love? And will Kate be able to choose between Mr. Rich and Mr. Right?
